Company Introduction

The KSHD brand started in QINGDAO, China in 2008, specializing in the R&D, manufacturing and sales of urban furnitures. The factory has more than 15 years of successful management and production experience, and its products are exported to more than 80 countries and regions home and abroad, especially to Spain, UK, Europe, America and Australia. The main business refers to manufacturer and sale for bollards, benches, bike racks, litter bins, outdoor tables & chairs, bicycle stands, tree grates, trailer accessories and other outdoor furniture and customize products made of galvanized steel, 304 and 316. The company has established a fully automatic robot production line and a line of thermoplastic coating process, with an annual output of 130,000 pieces. Having the machines and producing line for welding, bending, laser coating and others.

KSHD has many years of manufacturing history and brand accumulation, and is committed to the accumulation of technology and talents. Transforming new technologies into productivity is the core competitiveness. It has invented dozens of utility model patents and design patents; passed the quality management system certification, environmental protection Management system certification, occupational health and safety management system certification, five star green supply chain management system certification and other certifications; KSHD maintains advantages in domestic and overseas market competition with product price, performance and quality, and is committed to becoming a lean and trusted company. An innovative enterprise and a world-renowned outdoor furniture and educational furniture brand enterprise.

KSHD warmly welcomes new and old customers at home and abroad to visit and cooperate with us to create brilliance together.

KSLU042-49

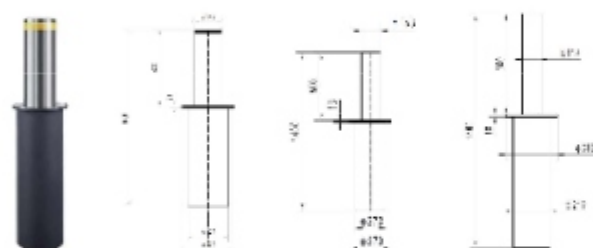

Specifications

Sturdy and Durable: The bollard post is made of a combination of thickened stainless steel and surface polishing with weld grinding process. It is durable, not easy to rust, and has the greatest strength, durability, and resistance to oxidation, UV rays, and harsh weather conditions.

Easy Parking: Many people use these bollard passages or driveways to mark when to stop their cars. It is convenient and quick to park.

High Visibility: The surface layer of the parking bollard is made of strong reflective sheeting, which sticks tightly and firmly. It is not easy to fade and fall off after long-term exposure. It has a long-lasting reflection and improves the driver's visibility to improve driving awareness and caution.

Multiple Uses: The traffic control pole is perfect for emergency responders, maneuverability driver training, horse courses, ramping and driveway warning signs, Cordon off areas for the parking, picnic or other public areas to prevent the car from being scratched.

KSLU004

Specifications

- Sturdy and Durable:** The bollard post is made of a combination of thickened stainless steel and surface polishing with weld grinding process. It is durable, not easy to rust, and has the greatest strength, durability, and resistance to oxidation, UV rays, and harsh weather conditions.
- Easy Parking:** Many people use these in their garages or driveways to mark when to stop their cars. It is convenient and quick to park.
- High Visibility:** The surface layer of the parking bollard is made of strong reflective sheeting, which sticks tightly and firmly. It is not easy to fade and fall off after long term exposure. It has a long-lasting reflection and improves the driver's visibility to improve driving awareness and caution.
- Multiple Uses:** The traffic control pole is perfect for emergency responders, maneuverability driver training, horse courses, camping and driveway warning signs. Cordon off areas for the parking lot, side or other public areas to prevent the car from being scratched.
